This course is based on helping professionals to improve their level of English so as to be able to communicate effectively in the work environment. It offers the benefit of studying in a group but with fewer numbers so that students have more opportunity to actively participate during the lesson and get more teacher attention than they would in larger classes. Smaller numbers offer more flexibility in planning the course content around the individual needs of the participants.

The lessons cover general needs at targeted levels:

- Intermediate (B1)
- Upper Intermediate (B2)
- Advanced (C1)

- ✓ Students need to fill in a placement test to establish entry level of English
- ✓ We would recommend you to bring a laptop or tablet

In this course we adopt variations of both the Communicative approach- aiding students to become better communicators, and the Lexical approach- focusing on combining words, phrases and expressions, both of which will give students the language skills they need to communicate fluently and accurately in their chosen field.

The course materials focus on adapting the four skills- reading, writing, listening and speaking, as well as focusing on grammar and lexical issues, and pronunciation, all within a centred context.

Student needs are an important aspect that we take into consideration when developing course materials and the themes covered would apply to a wide range of students working in different fields, whilst also personalising to individual needs.

Lessons are based on full immersion where learners are exposed to target language and simulating real- life experience and situations

Please note we encourage you to bring your Tablet or Notebook with you to work in the classroom
